## PROFESSIONAL SUMMARY

Associate Software Engineer with hands-on industry experience building full-stack IoT and Smart City product applications at Trinity Mobility Pvt Ltd. Proficient in Java, Spring Boot, RESTful APIs, and MySQL, with strong expertise in secure backend development using Spring Security and JWT. Passionate about delivering production-ready solutions for real-world urban and mobility challenges.

## PROFESSIONAL EXPERIENCE

### Associate Software Engineer — Product Engineering

Trinity Mobility Pvt Ltd, Bengaluru | March 2026 – Present

- Developing and maintaining full-stack features for IoT and Smart City product applications supporting real-world urban mobility solutions.
- Building scalable RESTful APIs using Java and Spring Boot to support IoT device communication and real-time data management.
- Working with MySQL databases to handle high-volume real-time data generated by smart city infrastructure.
- Contributing to frontend integration using HTML, CSS, and JavaScript for internal product dashboards.

## EDUCATIONAL QUALIFICATIONS

Andhra Engineering College, JNTUA, SPSR Nellore  
BTech (Artificial Intelligence and Machine Learning) - 2021 – 2025  
CGPA: 8.2

## TECHNICAL SKILLS

- Programming Languages: Java, Python, SQL
- Frontend: HTML, CSS, Bootstrap, JavaScript, Angular
- Core Java: OOP, Multithreading, Collections, Exception Handling
- Backend Technologies: Spring Boot, Hibernate, JDBC, Servlets, RESTful APIs, Spring Security, JWT, MVC, Maven
- Database: MySQL, MS SQL, Mongo DB, Neo4j
- Tools: Git, GitHub, Postman, Eclipse, Tomcat

## PROJECTS

### E-Commerce Website

- Built a full-stack e-commerce platform using Spring Boot, MySQL, Hibernate, Spring Security, and JavaScript.
- Implemented JWT-based authentication for 2 user roles, optimized API response time by 30%, and supported secure transactions across 100+ products.
- Tech Stack: Java, Spring Boot, Hibernate, MySQL, Spring Security, HTML, CSS, JavaScript, Postman.

### Eye Ball Cursor Movement Using OpenCV (Academic Project)

- Developed an AI-driven application enabling cursor control through real-time eye-ball tracking, eliminating traditional input devices.
- Implemented gaze detection using OpenCV and dlib; integrated PyAutoGUI for cursor actions; built Django web interface for demonstration.
- Tech Stack: Python, PyAutoGUI, OpenCV, dlib, Django.

## CERTIFICATIONS

- Oracle Certified Generative AI Professional — Oracle, Sep 2025
- Java Full Stack Development — SAAG Technologies, December 2025
